IDo Service Project Work Package One

The IDoService project aimed to develop a special service to allow people living with mild to moderate dementia to plan, connect with and participate in tailored opportunities to realise themselves and continue to be fully part of society.

It is made up of three stages, called Work Package 1, 2 and 3.

This Open Access folder relates to Work Package 1.

Work Package one (WP1) contains interviews and focus groups with the community. We conducted individual and group interviews with people living with mild to moderate dementia, their family and friends, and with other stakeholders in the field of dementia and meaningful activities. We discussed the availability, accessibility, needs, and wishes regarding social and leisure opportunities for people at early stages of dementia.

The interviews were complimented by a literature review and an overview of local services offer and access support to them (e.g., financial support, specific transportation offer) regarding activities for people living with dementia in the Greater Manchester.

The data collection provided a clear overview of the available opportunities regarding meaningful activities, and a working basis for the co-design workshops (work package 2).

>>FILES INCLUDED

The files included in this Open Access folder are;

1	FG1 - Focus Group with P1, P2 and P3	Stakeholders
2	FG2 - Focus Group with P4, P5, P6, P7 and P8	Stakeholders
3	FG3 - Focus Group with P9, P10 and P11	Stakeholders
4	S1 - Interview with P1	Stakeholders
5	S2- Interview with P2	Stakeholders
6	S3- Interview with P3	Stakeholders
7	S4- Part 1 - Interview with P4	Stakeholders
8	S4 - Part 2 - Interview with P4	
9	S5- Interview with P5	Stakeholders
10	S6- Interview with P6	Stakeholders
11	S7- Interview with P11	Stakeholders
12	S8- Interview with P10	Stakeholders
13	S9- Interview with P9	Stakeholders
14	S10- Interview with P12	Stakeholders

15	Individual Interview 11 with P16 & P17	PWD
16	Individual Interview 12 with P13 & P18	PWD
17	Individual interview 13 with P15	PWD
18	Individual interview 14 with P19 & P14	PWD
19	Individual Interview 15 with P20 & P14	PWD
20	Individual interview 16 with P21 & P14	PWD
21	Individual interview 17 with P22 & P14	PWD

>>FILE TYPES

The following file types are included in this folder of Open Access documents:

.doc or .docx - text documents require a word processor to open such as Microsoft Word or Apple Pages

.pdf - Require a program such as Adobe Reader

.xls - Spreadsheet requires a spreadsheet such as Microsoft Excel or Apple Numbers

.ppt - One powerpoint presentation requires a presentation program such as Microsoft Powerpoint or Apple Keynote

The underlying publication that relates to WP1, that uses these files is;

Tournier, I.; Orton, L.; Denning, T.; Ahmed, A.; Holthoff-Detto, V.; Niedderer, K. An Investigation of the Wishes, Needs, Opportunities and Challenges of Accessing Meaningful Activities for People Living with Mild to Moderate Dementia. *Int. J. Environ. Res. Public Health* 2023, 20, 5358. <https://doi.org/10.3390/ijerph20075358>

>>SHARING SENSITIVE DATA

Sensitive data can be shared publicly if appropriate precautions are put in place.

All files have been reviewed to ensure the anonymisation of participants. Any data that was removed has been replaced with [CAPITALS IN BRACKETS] to indicate what content has been removed.

Mandatory anonymisation

- All names have been replaced with the participants [P NUMBER].
- All direct identifiers (contact details, addresses etc) have been deleted and replaced with a blank [...]
- Places have been replaced with a more general area where appropriate. i.e. instead of Little Hulton, this may have been generalised to [SALFORD] or [GREATER MANCHESTER]
- Ages and dates have been replaced with more generalised information such as aged [60s].

Possible anonymisation

- Medical information has been deleted completely where irrelevant and replaced with [...]. If it is relevant to the question, it has been summarised [IN BRACKETS]

-Sensitive information (legal or ethical concerns, i.e. criminal history, sexual preferences and behaviour, political affiliations, medical records, income) has also been redacted and summarised appropriately.

All data created during this research is openly available from Manchester Metropolitan University's research repository: [DIGITAL OBJECT IDENTIFIER]."
